CATALOGUE

OF

GREEN-HOUSE AND HARDY PLANTS,

CONTAINING CHOICE COLLECTIONS OF

AZALEAS, CAMELLIAS, CHRYSANTHEMUMS, GLOXINIAS, FUCHSIAS, CIN-
ERARIAS, VERBENAS, ETC., AND CARNATIONS, DAISIES,
PICOTEEES, PHLOXES, PÆONIES, PANSIES.

1859.

Press of J. L. MALLWORTH, NO. 5 STATE AND 56 WASHINGTON STREETS, BOSTON.

MESSRS. HOVEY invite the attention of their friends and the public to the new edition of their Catalogue. It contains many rare and beautiful novelties, worthy the attention of all amateurs.

Green-house plants of all kinds being grown in pots, they may be transported at any season of the year. The season for transplanting the hardy herbaceous plants is April, May and June, in the spring, and September, October and November, in the autumn.

Boxes of plants, or bundles of trees, packed in good order, will be delivered in Boston, free of expense, and shipped, or forwarded, according to directions. If no directions are given, the best mode of transportation will be selected; but, in all cases, the goods are at the risk of the purchaser, and if any delay or loss occurs, after shipment, or delivery at the Express Office or Railroad, the Proprietors do not hold themselves responsible.

All letters of inquiries, or applications for catalogues, to receive attention, should enclose a postage stamp.

☞ All orders for plants, from unknown correspondents, must be accompanied with a draft on Boston or New York, for the amount.

The Nurseries are situated on the Cambridge road to Mount Auburn, half a mile east of Harvard Colleges, about two miles from Boston, and contain upwards of forty acres.

*** The Cambridge Horse Railroad Cars pass directly by the Nurseries every five minutes during the day, from their Depot in Bowdoin Square, opposite the Revere House.*

The following Catalogues are published during the year:—

FRUIT TREES,—Containing all the finest kinds of Pears, Apples, Peaches, Currants, Grapes, &c., &c.

ORNAMENTAL TREES AND SHRUBS,—Containing all the most desirable kinds of deciduous and evergreen trees, shrubs and vines, pæonies, azaleas, rhododendrons, &c.

GREEN-HOUSE PLANTS,—Containing complete collections of Azaleas, Camellias, Pelargoniums, Cinerarias, Geraniums, Verbenas, hardy herbaceous plants, &c.

DAHLIAS,—Containing, also, choice Hollyhocks, Gladioluses, &c.

ROSES,—Comprising a full assortment of summer blooming and hybrid perpetual, tea, and other varieties.

BULBS.—Embracing a fine collection of Hyacinths, Tulips, Lilliums, &c.

SEED CATALOGUE,—Containing all the newest and best vegetables, and the choicest collection of flower seeds in the country, comprising more than 1000 varieties.

Catalogues forwarded to all applicants, upon the receipt of a three cent stamp.

☞ All orders should be directed to

7 Merchants Row, Boston.”

NEW AND BEAUTIFUL PLANTS.

IN ADDITION TO OUR GENERAL COLLECTION, EMBRACING ALL THE POPULAR VARIETIES, AS WELL AS MANY NOVELTIES OF RECENT INTRODUCTION, WE TAKE MUCH PLEASURE IN OFFERING THE FOLLOWING DESCRIPTIVE LIST OF NEW AND BEAUTIFUL PLANTS, SEVERAL OF THEM OF GREAT MERIT.

AZALEA EULALIE VAN GEERT.

A new and beautiful Continental variety, with soft pale blush flowers, of great substance, beautifully spotted with carmine.

PLANTS \$1.50 EACH.

AZALEA MADAME MIELLEZ.

Another distinct and very fine variety, with large, handsomely formed flowers, pure white, distinctly striped with violet.

PLANTS \$1.50 EACH.

AZALEA ADMIRATION.

A superb variety, with finely shaped flowers of great substance, white, distinctly striped and penciled with crimson scarlet.

PLANTS \$1.00 EACH.

AZALEA CRITERION.

A remarkably beautiful variety in the way of *Exquisita*, but with much better formed flowers, more distinctly marked, and a superior variety.

PLANTS \$1.00 EACH.

AZALEA MATTAPAN.

A new American seedling of great beauty. Flowers very large, of remarkable substance, and of the purest white, remaining in bloom a long time. Habit vigorous, and bloom very abundant.

PLANTS \$1.00 EACH.

CUPRESSUS LAWSONIANA.

A new and beautiful cypress from the north-west. Comes from a high elevation, and is probably hardy. It is one of the most beautiful of the cypresses.

YOUNG PLANTS \$2.00 EACH.

GYNERIUM ARGENTEUM.

(*Pampas Grass*.)

A new and splendid South American grass, but from a very high elevation, and will probably prove hardy with a moderate protection of dry leaves. It grows from ten to twelve feet high, with an immense breadth of beautiful drooping foliage; and strong plants produce from ten to thirty of the most exquisite and graceful panicles of silvery flowers.

FINE PLANTS \$1.50 EACH.

HYPERICUM OBLONGIFLORUM.

A superb plant from the Himalaya, where it forms a dwarf shrub with evergreen foliage, covered with clusters of large golden flowers. The habit is neat, and it is eminently deserving a place in the green-house, should it not prove hardy.

YOUNG PLANTS \$1.50 EACH.

LILIUM GIGANTEUM.

This magnificent lily is one of the greatest acquisitions to this beautiful tribe of plants. It grows very strong, with large, deep glossy green leaves, and throws up a flower stem from eight to twelve feet high, terminated with a spike of twenty or more large, white, trumpet-shaped flowers, brownish on the outside. In England, it stood out the cold winter of 1853, with a covering of leaves in a temperature of 5°. With proper protection, it is hoped it will prove hardy with us. As a decorative plant for the conservatory, nothing can excel it.

FINE SPECIMENS, \$2, \$3, \$5, AND \$8 EACH, ACCORDING TO SIZE.

MEYENA ERECTA.

A beautiful plant, with much of the habit of a fuchsia, producing large bluish purple flowers of the size of a petunia, with a conspicuous yellow eye or throat. It is of easy culture, and will probably prove a beautiful summer flowering plant.

YOUNG PLANTS \$1.00 EACH.

PRUNUS SINENSIS ALBA PLENA.

One of the greatest acquisitions from China, and undoubtedly hardy. It is one of the prettiest plants for forcing in the green-house, its slender stems being profusely decked with large, slightly drooping, very double, white flowers.

YOUNG PLANTS \$1.00 EACH.

THUJOPSIS BOREALIS.

A lovely coniferous plant, rivalling, if not surpassing the hemlock in the gracefulness of its habit, and beauty of foliage. It comes from Behring's Straits, and has proved entirely hardy. It grows rapidly, and its great beauty must render it one of the most popular of all coniferous trees.

PLANTS \$1, \$3, AND \$5 EACH, ACCORDING TO SIZE.

WISTARIA MAGNIFICA.

A superb hardy climber, a variety of the native frutescens, with lilac flowers, having a peculiar metallic sulphur colored spot. It blooms profusely in very compact clusters, and is a rapid growing and fine acquisition to our ornamental plants for trellises or arbors.

STRONG PLANTS \$1.50 EACH.

NEW SEEDLING CAMELLIAS.

Messrs. Hovey & Co. will offer for sale in the autumn, two of their new and remarkable Seedling Camellias, due notice of which will be given, with a description of the plants, and terms of subscription.

NEW SEEDLING JAPAN LILIES.

Messrs. Hovey & Co. having raised several hundred seedlings of these beautiful lilies, during the last twelve years, have selected *nine* of the most distinct and fine, which they will offer for sale in the autumn of 1859. Descriptions of the flowers will be given, with prices of the bulbs, early in the autumn.

CATALOGUE

OF

GREEN-HOUSE PLANTS.

The collection of Green-house and Hot-house Plants is very extensive, and comprises not only all the popular and well known species and varieties, but all the new, rare, and showy kinds of recent introduction. No pains have been spared to enrich the assortment by importations from England and the Continent, or by the addition of new varieties of American origin; and arrangements have been made with foreign nurserymen, by which every desirable plant will be added as speedily as possible.

For a more ready reference to some of the popular flowers, they are arranged under special classes.

Those marked thus (), are climbing plants.*

FERNS.

The Ferns are among the most ornamental foliaged plants, and are extensively cultivated in English collections, where their delicate very deep green verdure sets off the more conspicuous and showy flowering plants. They are easily grown, flourishing in shady places where other plants would not succeed, and when well cultivated, always commanding the greatest admiration. For Wardian cases, they are indispensable in every collection.

AZALEA INDICA.

The Azalea is one of the showiest conservatory, green-house, or parlor plants, and from its simple cultivation and free flowering habit, is eminently adapted to the latter situation, where it opens its flowers as readily as in the green-house. With the improvements which have been made in the production of new varieties, it ranks among the most desirable plants for a collection.

CAMELLIAS.

Our stock of Camellias is very large, and of the most vigorous character. In addition to the stock of small plants, fine large specimens of the popular and admired varieties can always be supplied.

Our descriptions are brief, and intended to convey as good an account of each variety as is possible in the same space.

Those described as *imbricated*, *Imb.*, are of the character of the Double White. Those described as *double*, of the character of Chandleri. Those described as *double full*, of the character of Colvillii.

CARNATIONS.

The Carnation is one of the most brilliant and showy flowers. Easily cultivated and quite hardy, (if properly protected,) no garden can be complete without a smaller or larger collection. From the generally received notion that it requires extra care and attention, it has been unjustly neglected; and we cannot but hope it will receive that attention which its great merits demand. Our collection will be yearly augmented by new kinds from England, and by our own seedlings.

PICOTÉES.

The Picotee is scarcely less beautiful than the Carnation; with many it is a greater favorite. It is of the easiest cultivation,—quite hardy,—and produces a profusion of delicately edged and tinted blossoms.

Picotees are divided into four classes, viz :—Purple Edged, Red Edged, and Scarlet Edged, all with white grounds; and Yellow ground with Purple Edge.

Among the following are several seedlings unsurpassed by any of the English varieties.

HERBACEOUS PÆONIES.

Few hardy flowering plants have been more popular or admired objects in the garden, than the Chinese Pæonies. Easily cultivated,—flourishing in all situations,—they have become indispensable ornaments to every collection. With the introduction of new varieties, their attractions have been greatly increased. All the varieties are *double* unless otherwise noted.

THE FRUITS OF AMERICA,

A SPLENDID WORK, CONTAINING FINELY COLORED PLATES OF ALL
THE CHOICEST FRUITS IN THE UNITED STATES,

WITH

COMPLETE DESCRIPTIONS OF EACH VARIETY, THEIR CULTIVATION, &c.

BY C. M. HOVEY,

EDITOR OF THE "MAGAZINE OF HORTICULTURE."

To render the Fruit cultivator familiar with all the finest fruits cultivated in the United States, is the object of this work. Each volume contains FORTY-EIGHT superbly colored plates of the choicest Apples, Pears, Peaches, Cherries, Plums, and Strawberries, with accurate descriptions of each, and all the information in regard to their synonyms, origin, growth, &c. None but the very best fruits will find a place in the volume. Every fruit is drawn from nature, expressly for this work.

The work is published in numbers of four plates each, and twelve numbers complete a volume. Two volumes, containing NINETY-SIX plates, have already been completed, and Nos. 1 and 2 of the third volume published.

The work is of royal octavo size, and forms two large and splendid volumes, elegantly bound in Turkey gilt, at \$15 each. Vol. 3, in numbers, \$1 each.
